

Download and Install the new PTS Report Viewer software:

1. Download from <http://www.tamscentral.com/PTSreportviewer/PTSreportviewer.exe>

You will receive a “File Download” dialog. Select “Save” and pick a location on your computer to save the \_le to.

2. To begin the Installation process:

- a. Double-click on the downloaded PTSReportViewer.exe \_le to unzip the contents.

- b. Select an easily accessible location on your hard drive to unzip the \_les to, or leave defaulted for the current directory, and click “Unzip”

- c. Close the WinZip Self-Extractor dialog.

- d. Double-click on the “Setup.exe” \_le and follow the Installation Instructions to complete the install.

It is recommended to use the default installation Folder and choose the “Everyone” option.

The sample reports will be installed in the \Sample Reports subfolder under the installation folder.
